INSTALLATION DETAILS WATERBRIDGE ROMAN TUB FILLER

Legs shipped with wood or metal spacer. Remove before installation.

Shipped with o-rings to keep sleeves in place. Remove during installation.

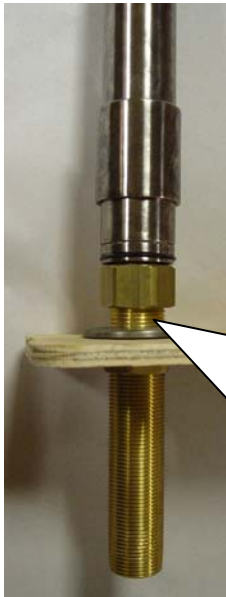

Leg Trim Sleeve
(Hides Compression Nut)

2" Trim Ring
(Hides hole through floor)

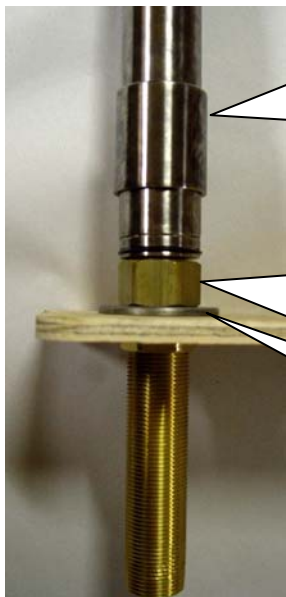

Retaining Nut
(Optional - Holds Faucet tight against floor)

3/4" Nipple

Water Supply

3/4" Nipple should be installed exactly 5/8" above finished floor for optimum compression seal

Lift Trim Sleeve to expose compression fitting nut

Tighten down compression fitting locking nut – then slide Trim Sleeve down to hide nut

Trim Ring
