

CIXX PREMIUM FAUCETS

FOR IMMEDIATE RELEASE

RUGGED CIXX COLLECTION OF FAUCETS FROM SONOMA FORGE STANDS AS A TRIBUTE TO THE ARTISTRY OF HAND-FORGED METALS

CIXX Collection Showcases the Raw Beauty of the Blacksmith's Hammer Marks, Making Each of These Faucets Uniquely Beautiful.

PETALUMA, Calif. – Sonoma Forge grew from a rich history of foundries and blacksmith shops, and nowhere is that more evident than in the CIXX Collection of one-of-a-kind faucets. Featuring rugged, hand-forged faucets made of solid brass and stainless steel, the CIXX Collection demands attention with its straightforward lines and distressed surfaces resulting from the blacksmith's hammer blows.

“I grew up in a foundry and have always had a great appreciation and love of the masculine look of forged and hammered metals,” says Steve Rosenblatt, Owner, Sonoma Forge. “This collection represents the simple, elegant and raw beauty that can result from the pouring and forging of hot metal in an age old craft.”

Completely unique to the marketplace, the unpretentious beauty of the CIXX Collection will appeal to homeowner's that want a strong looking faucet perfectly at home in an urban loft, a country estate or mountain lodge. Available finishes include brass or stainless in a distressed hand-forged texture. Included in the collection are both lavatory and tub fillers in wall mount or deck configurations and a thermostatic shower. Matching accessories are offered to complete the look for the entire bathroom suite.

Starting in price from \$1,440, the CIXX Collection of faucets is representative of Sonoma Forge's commitment to distinctive, hand-forged products. Innovative thinking is brought to life by some of California's finest craftsmen, resulting in timeless style that will deliver function and enhance the beauty of their environment for years to come.

About the Company

Based in Petaluma, Calif., in the heart of the world-renowned Sonoma Valley wine country, Sonoma Forge and its sister company Sonoma Cast Stone were founded by owner Steve Rosenblatt. Growing up in a family foundry and blacksmith shop, Rosenblatt found the pouring and forging of hot metal and concrete to be truly magical. Having worked with some the world's finest craftsman and designers in California, Rosenblatt has helped create an inspirational line of products.
